### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Makrogiannis on 11/23/2004.

The application has been amended as follows:

a) Claim 46, line 2, delete "a sample well tray"; line 6, delete "an" and replace with --a--; line 7, after "springs" insert --positioned below the plate--.

The following is an examiner's statement of reasons for allowance: The DE 19739119 A1 reference shows an ejection plate (13) positioned below a heating block (15) and a sample well tray positioned on top of the block (15). The ejection plate is equipped with pins (14) are used to contact the bottom of the tray (1) and push the tray (1) off of the block (15). This reference does not teach or suggest a thermal cycling device having a plate with a plurality of springs underneath thereof for ejecting the sample well tray from the sample block. The WO-A-98/56506 (Kilcoin et al.) document does not suggest ejecting a sample well tray from a sample block using an ejecting plate with springs positioned below the plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A Redding whose telephone number is 571-272-1276. The examiner can normally be reached on Mon.-Fri. 6:00 - 3:00.
